

Omnilux Mini™

Meet the Mini

Clinically proven LED devices boost collagen production, reduce acne & soothe skin in just 10 mins.

Mini devices, major results

Good things come in small packages. Treat on-the-go and target your skin's unique problem areas with Omnilux's Mini LED devices.

We've paired our award-winning LED technology with skincare-infused Hydrocolloid Patches to help:

- Diminish the appearance of fine lines, wrinkles, and age spots
- Fight acne breakouts
- Soothe inflammation and redness
- Brighten complexion
- Boost hydration
- Restore the look of fatigued skin

Pocket-sized LED heroes

Explore 3 mini but mighty LED light therapy treatments that deliver clearer, brighter, and younger-looking skin.

Eye Brightener

For dark circles & wrinkles

Brighten dark circles, diminish under-eye bags, and smooth wrinkles. Includes Hydrocolloid Patches infused with amino-acid rich properties and niacinamide.

Blemish Eraser

For acne & inflammation

Fight acne, clear congested skin, and calm redness + inflammation. Includes Hydrocolloid Patches infused with salicylic acid and green tea.

Skin Corrector

For fine lines & pigmentation

Improves fine lines and age spots while soothing redness. Includes Hydrocolloid Patches infused with vitamin C and azelaic acid.
